Subject: RE: PSNH - Granite Shore Power Transaction

Hi Mark –

It appears that the closing is happening later today (January 10th). Once executed, I will email and overnight to you (a) a letter notifying you of the closing and (b) copies of the signed Assignment and Assumption Agreements (evidencing the sale) associated with the NPDES permits for the Merrimack, Newington and Schiller Stations.

Thank you for your patience through this process.

Dave

Subject: PSNH - Granite Shore Power Transaction

Hi Mark –

This is just a brief update on the status of the transaction involving the sale of PSNH's thermal assets to Granite Shore Power. I had previously indicated that the parties were shooting for a December 29, 2017 closing. Given the complexity of separating the generation assets from the transmission and distribution assets, as well as a number of other factors, the transaction were not able to close on that date. However, the parties currently are working towards a proposed

closing date of January 12, 2018. Again, this is not yet a set-in-stone date. I will continue to stay in touch and will let you know when we have a firm closing date.

Hope you have had a fine holiday break.

Dave
